"HUMBLE SERVICE WITH A PROUD PERFORMANCE" SINCE 1965

An ISO 9001-2008 Company

ANSWERING SERVICES ALL OVER INDIA

PEST CONTROL TREATMENT TO YOUR OFFICES, SOFTWARE FACILITIES, MULTI PLEX, MALLS, FACTORIES, HOSPITALS, HOTELS, GODOWN, RESIDENTIAL PREMISES & ALSO TO SHIPS & AIR CRAFTS

PROFESSIONALS SINCE 1965

We are one of the **ISO 9001 : 2008 Certified Company in India in operations since 1965**, engaged in carrying out all the below mentioned services and request you to kindly register our name in your regular contractors list and send your enquires whenever our services are found necessary. We have vast experience in this field and are fully equipped with modern methods, treatment and latest equipments with Experienced Technicians.

Constant research in eradication techniques has established **BIGICO** as the prime leaders in advanced pest control and fumigation methods.

BIGICO's pesticides are proven and tested which are very effective for pest eradication. These scientifically selected chemicals, while being highly potent and effective against pest, rodents and termites, they also do not endanger human life, their prosperity nor do they stain fixtures & furnitures.

With its anti-pest drive, **BIGICO** brings to you, all the benefits of large scale, environment friendly, economical servicing, (**Professional services at economical price**) since it covers the largest number of household, hotels, offices, factories, institutions, hospitals, software facilities, godowns, etc.

DISINFESTATION**Against Cockroaches, Lizards, Bed-bugs, Cobwebs etc.**

The process consists of fumigation, residual spray and gel treatment which prevents new infestation. We also undertake annual contract under which our responsibility is to keep your premises free off from any type of pests through out the year at reasonable charges.

RODENT CONTROL**Against Rats, Mice, Bandicoots etc.**

We under take Rodent control measures and the problem is not only to control them but also to keep them away with constant vigilance. Obviously Rodent Control measures have to be maintained through out the year.

TERMITE CONTROL**Against Whiteants**

Termites are the most destructive of all pests and superficial methods of control creates false sense of security. Our measures are based on the latest developments in control techniques and are long lasting. We not only treat the attacked spots but also provide chemical barriers to prevent entry of white ants.

BIGICO'S POST-CONSTRUCTION ANTI-TERMITE TREATMENT

This method is safe, effective and sure that **BIGICO** gives 5 years guarantee certificate for all post-construction soil treatment. The job shall be carried out free of cost if termite appear during the said warranty period.

PRE-CONSTRUCTION TERMITE SOIL TREATMENT**FOOTING TRENCH TREATMENT**

The first step in pre construction treatment against White ants is to treat the wall and base of the footing trench with our chemical. Concrete is then poured in the trench to form the footing of the exterior wall

EXTERIOR TRENCH TREATMENT

After the exterior walls are up, a trench is made around the entire building deep enough to expose the footing. This trench is thoroughly treated. As it is refilled with soil, the replaced soil is saturated with the solution.

Pre-construction treatment can be timed to fit into your building schedule. With our careful coordination with that of your building work, termite control can be achieved without the slightest delay in construction. Such treatment generally guarantees immunity from termite at least 7/10 years.

PAD TREATMENT

After the footing has been poured and exterior walls started all of the exposed soil that will be under the slab of building is thoroughly drenched with the chemical.

We have the experience, equipment, skill and trained personnel. In short we can give you a complete trouble-free packaged service that will save your time and money. Our charges for these above works are very nominal as you will find from our quotations which we will be pleased to submit after inspecting your site. We trust, you will appreciate the importance and the benefits of this process of treatment. We solicit the favour of such work from your good offices.
